

台式压力泵

概述

The pumps PTC series are used to generate pressures for checking, adjusting and calibrating gauges and pressure transducers by accurate reference measuring instrument. The PTC serie includes the model 100 for operating ranges up to 100 bar, the 400 serie for ranges up to 400 bar. The base in white sheet enables a secure and stable support.

SPECIFICATION

High pressure unit: brass rod

Cylinder : stainless steel

Piston: brass in Teflon guide

Trapezoidal screw: stainless steel

Sockets for gauges: stainless steel for 1/2 BSP with rotating screw nut and OR seal

Hand wheel: stainless steel at 3 spokes

Tank: stainless steel and plexiglass head valve

Filling liquid: denatured water or oil

重量 12 Kg

Dimensions: 365x360x220 mm
